

I listen exclusively to 91.9 and 99.3 (K-Love), both in my area & when travelling (I search out where it's being broadcast when travelling). It's my favorite station, bar none. If it wasn't here, I wouldn't listen to any local stations...I would be forced to listen to the Fish in Sacramento instead, because I only listen to Christian music. I feel it serves the community by sharing a positive, hopeful message about life and excellent music without cursing/drug references/negative images that children should never hear (& that I have no interest in hearing, myself!) It makes me a safer driver by keeping me focused on how God would want me to treat my fellow drivers, & brings my focus to the good aspects of life instead of the hard ones. It can do this for anyone who listens in our community! Please don't take away my K-Love! I support it every month because it helps me so much in my daily life. Many of my friends listen to it, also. Thank you for considering my point of view, and may God bless you.
